Introduction

Are you concerned about your teen's future in today's fast-paced job market? Paul Revere Academy offers an innovative solution: a high school experience that prepares students academically and professionally for life after graduation. Through our unique blend of customized academics, hands-on career training, and character education, we empower students to graduate with the skills, confidence, and qualifications they need to thrive in their chosen fields.

PRA's *Mission* and Vision

PRA's Vision

At Paul Revere Academy, we envision a future where students graduate with both a strong academic foundation and real-world skills that empower them to thrive in college, career, and life. We believe education should prepare students for independence, responsibility, and leadership.

PRA's Mission

To ignite a passion for learning and purpose by offering a unique blend of rigorous academics and hands-on career and technical education. Our mission is to equip students with the knowledge, certifications, and confidence they need to make meaningful contributions to their communities and industries.

01.

Commitment to Student Success

We provide a safe, supportive environment where students are known by name and given the tools to succeed—both in the classroom and beyond.

02.

Real World Career Training

Through our partnership with EVIT, students earn industry-recognized certifications and hands-on experience while still in high school.

03.

Personalized Learning & Growth

Our half-day academic and half-day technical training model allows students to explore their interests, build practical skills, and graduate with a competitive edge.

Our *High School* Overview

Empowering Students Through Purposeful Learning

Our half-day academic and half-day technical training schedule allows students to master core subjects while exploring real-world careers they're passionate about. Whether they want to head to college, start a business, or enter the workforce, PRA prepares them to succeed.

Here's a snapshot of what sets PRA apart:

01. Focused Academic Classes

Students attend morning academic classes that emphasize mastery in math, science, English, and history—taught by passionate educators who care.

03. Small, Safe Campus

PRA's intimate campus means students are seen, known, and supported. Our environment promotes safety, respect, and a strong sense of community.

05. Individualized Guidance

Each student has a personalized path. Our counselors and staff work with families to ensure students stay on track and aligned with their future goals.

02. Career & Technical Education

In the afternoons, students head to EVIT to gain hands-on experience and certifications in high-demand career fields—from health sciences to welding, cosmetology to cybersecurity.

04. College and Career Ready

By graduation, students walk away with real skills, real certifications, and real confidence. Whether it's college, a trade, or the workforce, they're ready.

06. A School That Works for Families

Our unique schedule and supportive culture make PRA a great fit for students and parents looking for an alternative to traditional high school.

The Process

from first day to graduation

Introduction

Choosing a high school is a big decision—and we're here to make that transition smooth, exciting, and purposeful. At Paul Revere Academy, students don't just attend school—they build a future. Our process is designed to guide students through a meaningful 4-year journey combining academic excellence, career training, and character development.

Here's How The Process Looks with EVIT

9th Grade: Foundation & Exploration

Students dive into core academic subjects with supportive teachers in a safe, small-campus setting. They explore career fields offered through EVIT, preparing to select a focus for the following year.

10th Grade: Starting Career Training

Students begin attending EVIT in the afternoons, receiving hands-on instruction in a chosen field—from welding or healthcare to graphic design or cybersecurity—while continuing strong academics in the morning.

01.

02.

03.

04.

11th Grade: Skill Building & Certification

With one year of EVIT under their belt, students begin to refine their skills, work toward industry certifications, and gain experience that's relevant to college and career pathways.

12th Grade: Leadership & Launch

Senior year is all about finishing strong. Students complete their academic and technical programs, apply for college, jobs, or apprenticeships, and graduate with confidence, direction, and real-world skills.

Scholar Life

06

At Paul Revere Academy, high school is more than just tests and textbooks—it's about building a future while enjoying the present. From hands-on learning to new friendships, students at PRA discover what it means to be part of something meaningful.

The Best Part? **Tuition Free!**

Highlights of PRA

- ✓ High School Diploma
- ✓ CTE and Career Certifications
- ✓ Make new friends
- ✓ Hands-On Learning
- ✓ Personal Coaching
- ✓ Small Class Sizes

"The support system here is amazing!"

What you'll get:

01. A Unique Daily Schedule

Spend your mornings mastering core academic subjects in a safe, supportive environment. Then head to EVIT in the afternoon to dive into real-world training in fields like nursing, culinary arts, automotive, cybersecurity, cosmetology, welding, and more. Or vice versa!

02. Real Friendships & Community

With a small student body, everyone is seen, known, and valued. Our tight-knit campus helps students build lasting friendships and connect with teachers and staff who truly care.

03. Purpose-Driven Learning

Students choose career paths that matter to them—so school feels relevant and exciting. Whether it's designing logos, wiring circuits, or caring for patients, PRA scholars get to do meaningful work now, not just "someday."

04. Support to Succeed

We help students stay focused, stay motivated, and stay on track. From personal guidance to academic coaching, we're with you every step of the way.

Are We A *Good* Fit?

We Are A Good Fit If

- ✓ You value a safe, small-campus environment where your child is known by name.
- ✓ You're looking for an education model that includes both academics and career readiness.
- ✓ You want your student to graduate with certifications, hands-on skills, and college or job opportunities.
- ✓ You're open to new approaches to learning that go beyond the traditional high school schedule.
- ✓ You understand that long-term success comes from dedication, consistency, and strong partnerships.
- ✓ You're seeking a school that collaborates with families to support students as individuals.

We Are Not A Good Fit If

- ✗ You're only looking for a traditional full-day high school experience.
- ✗ You prefer a large campus or a high school with hundreds of students per grade.
- ✗ You're not interested in your student pursuing career training or technical certifications
- ✗ You expect instant results without investing time in skill-building and growth.
- ✗ You're not able to support your student in attending both PRA and EVIT consistently.
- ✗ You see high school as just a requirement rather than a launchpad for future success

PRA isn't one-size-fits-all—and that's the point.

We exist for families who are ready to help their students take bold steps toward a brighter future.

Student Testimonials

10

When I first came to Paul Revere Academy, I was very nervous. I didn't have a lot of friends at my old school, and since coming to PRA I now have gained so many! During my time here my confidence in myself has grown. I decided two years ago to leave my old school because I wanted to do Interior Design at EVIT, so PRA's location is very convenient. The teachers are so nice and I believe anyone who comes here would have a great experience.

Abby Y. Senior Graphic Design

When I first came to Paul Revere Academy, I felt invited and welcome. I like how close EVIT is, and how you can start a program as a sophomore. This school has helped me stay on track and quickly finish credits. I enjoy how small the school is because it gives more opportunity for 1-on-1 time. I would absolutely recommend PRA to others.

Aaron A. Senior HVAC-R

"I started high school at a different charter school that just didn't meet my needs. My sister goes to PRA and she liked it, so I decided to tour the school. I liked it better for so many reasons! It was small, there were new people to work with, and I made friends quickly. I really like the teachers here, I think they are very understanding. I also love that you can start EVIT in 10th grade here. PRA was the right choice for me.

Janelle K. Sophomore Cosmetology
