# PreACT®

---

Paul Revere Academy will be administering the Pre ACT  
10th grade (Sophomores)  
April 21st, 2026

We will start promptly at 11:45 AM

**\*\*All students are expected to attend school on testing days. These assessments are required. Your attendance matters!**

The PreACT is a practice test for the ACT, designed for 10th grade students in Arizona, offering insights into their predicted ACT performance and aiding in high school course selection and college/career planning.

Here's a more detailed breakdown:

**Purpose:**

The PreACT aims to provide 10th-grade students with an early experience of the ACT test format and content, helping them identify strengths and areas for improvement.

**Content:**

The PreACT covers the same subject areas as the ACT: English, Math, Reading, and Science.

**Scoring:**

PreACT scores are on a scale of 1 to 35, with a composite score calculated from the average of the four section scores. The PreACT also provides an estimated ACT composite score, ranging from 1 to 36.

**Reporting:**

PreACT reporting includes both academic and career indicators, providing a comprehensive view of students' college and career readiness.

**Benefits:**

- Helps inform high school course selection.
- Provides insights into students' predicted performance on the ACT.
- Identifies areas for improvement and informs test preparation activities.
- Offers a wealth of information to help students get the start they need to be college-ready.
